

Linda Joy Sullivan

for Vermont Auditor of Accounts 2020

Protection, Prosperity and the Importance of Good Government

I feel strongly that the Vermont State Auditor has to be free of the shackles of partisan politics.

Labels – like progressive vs moderate, Democrat vs Republican – should just fade into the background when you're appropriately focused on what's most important in the job -- making sure your ***Government is as Good as it can be.***

To me, that means a Government that will always be focused on protecting the neediest among us while also creating the right environment that will maximize opportunities for everyone to achieve their potential, to live their hopes and dreams, for businesses to grow and to prosper.

So let me tell you why I am running for this important – yet under-appreciated – office.

As your next State Auditor my focus, my priority has to be to make sure that our Government is working for you. I want to make sure that government is providing opportunities for all of us to grow and prosper. I know the notion of "prosperity" suggests to some the notion of making some people rich at the expense of workers. But that's not how I view prosperity.

I think it critical that our students all over the State have the opportunity to attend fiscally stable State Colleges.

I think it crucial that we do everything in our power to guarantee our teachers and public employees the retirement and health benefits they bargained for so that they are secure in their retirement years.

I would like to see us maximize the opportunities for businesses to grow, to encourage community investments, to expand job growth, to increase wages and benefits.

That sort of prosperity will ensure that for generations we will live in communities and in a State that will not suffer an exodus by our young people, that will allow us to preserve our tremendous natural resources, that will allow us generously to care for those in need.

The State Auditor can't make those things happen. But the State Auditor is critical to making sure that our Government is maximizing its potential to do Good by selecting audits necessary to evaluate the welfare of our wonderful state.

I'm running for this Office because I am passionate about the importance of Good Government. As a CPA, Public Auditor, entrepreneur, business owner and member of the General Assembly I have the skills, experience and perspective most important to do this job.

On August 11, I Ask for Your Vote – I Ask that You Help Me Better Secure a Compassionate and Prosperous Vermont
